Human Movement Science 6 (1987) 389–390
North-Holland

CONTENTS OF VOLUME 6

Abernethy, B. and D.G. Russell, The relationship between expertise and visual search strategy in a racquet sport 283
Bairstow, P.J., Analysis of hand movement to moving targets 205
Benoit-Dubrocard, S., For what is the preferred hand preferred? A developmental study of a pair of twin girls of opposite handedness 107
Black, P., *see* L. Proteau 257
Bobbert, M.F., *see* J.B. de Graaf 333
Buckholz, E. and C. O'Donnell, Response programming hierarchy: a word of caution when parallel programming of output parameters is indicated (*Research Note*) 201
Buckholz, E.E., *see* T.E. Gabriele 1
Clark-Carter, D.D., A.D. Heyes and C.I. Howarth, The gait of visually impaired pedestrians (*Research Note*) 277
De Graaf, J.B., M.F. Bobbert, W.E. Tetteroo and G.J. van Ingen Schenau, Mechanical output about the ankle in countermovement jumps and jumps with extended knee 333
Dugas, C., *see* L. Proteau 181
Engelhorn, R., Effects of skill practice on electromyographic activity patterns and frequency spectra 117
Evans, N., *see* R. Wells 349
Fagard, J., Does manual asymmetry of right-handers change between six and nine years of age? 321
Gabriele, T.E., C.R. Hall and E.E. Buckholz, Practice schedule effects on the acquisition and retention of a motor skill 1
Girouard, Y., *see* L. Proteau 181
Girouard, Y., *see* L. Proteau 257
Greer, K. and N. Harvey, Pain induced by nerve compression blocks affects voluntary movements and assessment of peripheral nerve ischaemia 17
Hall, C.R., *see* T.E. Gabriele 1
Harrison, A. and R. Kruze, Perturbation of a skilled action 1. The responses of neurologically normal and cerebral palsied individuals 37
Harrison, A. and R. Kruze, Perturbation of a skilled action 2. Normalising the responses of cerebral palsied individuals 133
Harvey, N., *see* K. Greer 17
Heyes, A.D., *see* D.D. Clark-Carter 277
